

# GOING BEYOND STANDARTS - QUALITY MADE BY EDEL

## About Us 2019

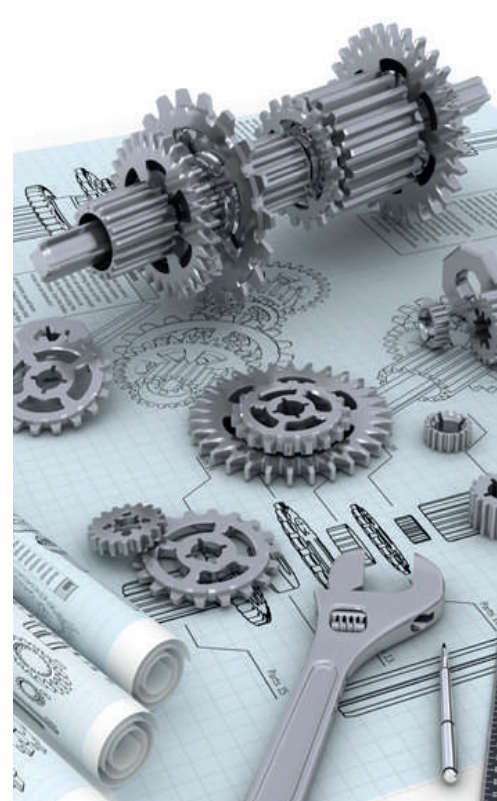

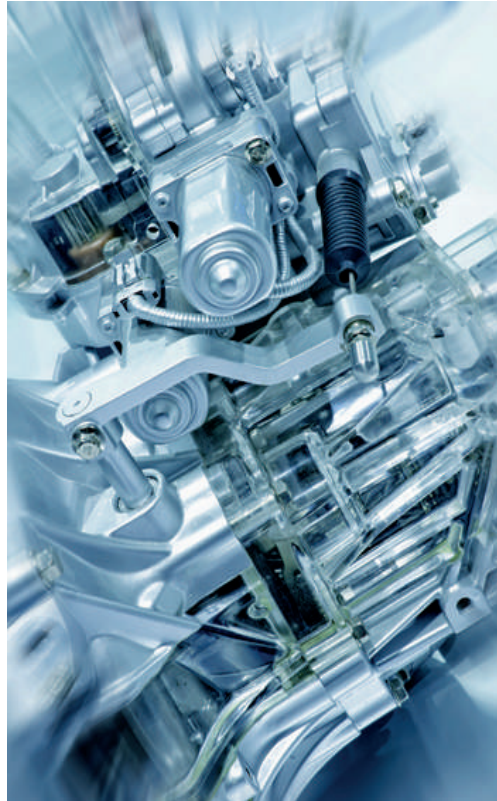

Edel is a Brand Devoted to Distribution and Manufacturing Diesel Engine Parts for MTU® and Detroit Diesel® Engines

All products supplied by Edel are of O.E quality and in most cases are the O.E product itself.

Our Company principle is to maintain a global viewpoint, we are dedicated to supplying products of the highest quality yet at a reasonable price for worldwide customer satisfaction

We have highly experienced sales and product management teams to assist with general queries and technical issues.

Edel products always bear the Edel hologram

## Management Team

Our management team has extensive experience investing and operating in the Diesel Engine spare parts industry and will be focused on optimizing our current business and expanding our operations through disciplined development and accretive acquisitions. Their unique experience has led us becoming more sophisticated and qualified in our line of work

## Production Team

Since we produce for over 60 countries more than 100 clients we produce and provide thousands of different types of products and processes, our production team is very flexible and professional. To keep up and lead the market trends our production facilities never stops innovation on technology and equipment as well as organizational structures

## Warehouse Team

Our warehouse is packed with thousands of products and our warehouse teams deal with them all, picking and packing the right products and making sure they all get to the right stores at the right time.

## Sales Team

Our team of sales managers combine a wealth of knowledge and experience, which has been built over many years of working with customers, to help shape the industries into which we sell. Investing in relationships, taking time to understand customers' current needs, and working together for a sustainable future, are just some of the things that drive us to go further.

## Quality Control Team

This team supports the continuous success of our company and its reputation. They do this by enforcing our company's quality workmanship procedures set forth and inspect that these procedures are carried out each and every day. Our Quality Control Representative will inspect your project to verify that everything was completed as per your contract and you are a satisfied customer.

## Accounting Team

Our accounting team is an intricate part of our division. They assist our staff with invoicing, purchasing, accounts payable, disbursement vouchers, travel arrangements, and division budgets. They strive to quickly assist with all accounting needs.
